ABSTRACT

The abstract should state briefly the purpose of the research, the principal results and major conclusions. All manuscripts should include an abstract not more than 250 words.

Key words: Minimum 3 and maximum 7 keywords will be acceptable.

INTRODUCTION

Beginning with a new page, it should be brief and limited to the statement of the problem/objectives and aims of the experiments with brief review of literature pertaining to the type of work.

MATERIALS AND METHODS

Relevant details should be given including experimental design and the technique (s) used along with appropriate statistical methods used clearly along with the year of experimentation (field and laboratory). Technical jargons should be avoided, and where possible statistical data should be summarized in the text.

Note: Please add some more headings according to the requirement of paper.

RESULTS AND DISCUSSION

It should include important findings discussed briefly. Wherever necessary, elaborate on the tables and figures without repeating their contents. Interpret the findings in view of the results obtained and in past studies on the topic. State the conclusions in a few sentences at the end of the paper.

ACKNOWLEDGEMENT

Acknowledgements (if needed) should be brief and placed at the end of the text before the references.

REFERENCES

References should be arranged alphabetically. References should be in the proper format on a separate page. Unpublished data should not be cited in the references.
